

Master of Bioengineering

Sem 1, 2022

Contact

Program Coordinator: Dr Adrian Oehmen

E-mail: a.oeahmen@ug.edu.au

Indicative study plan

Year 1				
Feb	ENGG7901 Prof. Engineering & the Business Environment	BIOE4020 Bioprocess Engineering	BIOE6034 Cell and Tissue Engineering	PUBH7630 Introduction to Biostatistics
Jul	ENGG7902 Engineering Innovation and Leadership	BIOE6028 Metabolic Engineering	BIOE4305 Biomaterials: Materials in Medicine	Elective
Year 2				
Feb	ENGG7381/ENGG7382 Engineering Project 8A		Elective	Elective
Jul			Elective	Elective

Engineering professional practice hours – Engineers Australia

Engineers Australia, the Engineering accrediting body, states that “exposure to professional engineering practice is a key element in differentiating a professional engineering degree from an applied science degree” and requires engineering graduates to have 12 weeks (or 450 h) of ‘exposure to professional practice’.

Check the following link to know what activities can be accounted for:

<https://www.eait.uq.edu.au/engineering-professional-practice>

or contact the employability team: employability@eait.uq.edu.au
