

Australasia Graduate Programme

Run in Australia, Singapore, Indonesia, Malaysia and New Zealand, our programmes are designed to help you discover a pathway to your purpose and be the sustainable force you want to see in the world.

Creating your pathway to purpose

No matter where you want to take your career, our three pillars will help you create a pathway to discover your purpose. You will be encouraged to use your creativity and imagination to discover your purpose and help us shape a better world.

“The culture, the opportunities for exploration and creativity, and the strong focus on sustainable development told me that Arup was the right fit to start my career.”

Jia Sheng, Graduate Engineer, Arup

Summer Vacation Programme

A paid experience over the summer university break. Run in Australia and New Zealand, the programme will help kick-start your professional development and on-the-job experience.

You will learn from a team of energetic and creative people dedicated to sustainable development and design excellence and have the chance to work on challenging projects, large and small.

By taking part, you will also be automatically considered for a graduate role, putting you ahead of the pack!

Applications are open to students in their penultimate and final year of study.

“Arup was one of the only engineering companies that anchor all their work to sustainable development with a dedicated environmental team. It’s exciting to be ahead of the curve and progress renewable energy in Australia.”

Tess McGahan,
Vacation Programme Student
and Graduate Consultant, Arup
