

Engineering Professional Practice Reflection Submission guide

Download your reflections template

You are able to download the reflections template from the EPP system at any time (though it is recommended to do this after you have a sufficient number of approved professional practice hours to support your reflections).

A link to download your EPP reflection template is available in the Completion Overview section (via the link in Blue Box).

The Completion Overview table will display the total hours claimed that have been vetted and approved in the Approved column.

The reflections template will display the total number of claimed hours and a link to further details of your claim on the homepage for the marker to review.

Submit your reflections assessment for marking

1. You can access the Engineering Professional Practice 2023 Organisation [here](#).
2. Click on the 'Submit' button to enrol in the organisation.

Tuesday, 19 September 2023 15:06:57 o'clock AEST

OK

4. Select your relevant School assessment link

 [Chemical Engineering Reflections Sem 1, 2023](#)

 [Civil Engineering Reflections Sem 1, 2023](#)

 [ITEE Engineering Reflections Sem 1, 2023](#)

 [Mech and Mining Engineering Reflections Sem 1, 2023](#)

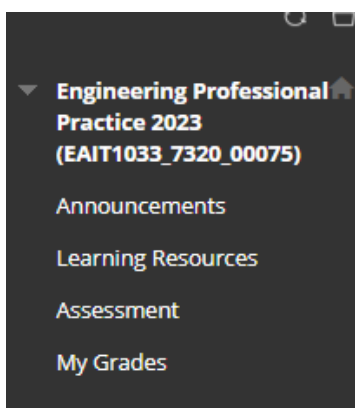

5. Upload your reflections using the template you downloaded from the EPP System.

You have no active papers in this assignment.

If your assessment has been marked with a Pass this will be displayed in Blackboard in “My Grades”

If your assessment has been marked with a Fail you may re-write your reflection and re-submit as many times as you need until you receive a Pass.
