COMPULSORY QUIZ

Find out your strengths. Review the knowledge you need.

Students entering the first year of engineering bring different levels of knowledge and experience. Some have studied Maths C, Physics and Chemistry whilst others may have only studied one of these subjects.

In addition, there can be variation in the curricula offered by domestic and international schools. This can mean that some students may have skill sets that require additional support to assist with their transition to university.

The information gained through the Get Set Quiz is used in a number of ways:
- The overall cohort knowledge is fed back to first year lecturers so they can tailor their lectures appropriately;
- An individual report is generated indicating where you may need to do some revision and directing you to relevant resources;
- You will become aware of the knowledge expectations for first year engineering and can revise accordingly;
- You may also find that the information helps with selecting your courses.

1. Grab a pen and paper.
2. Go to: www.eait.uq.edu.au/preparation
3. Log on using your UQ login and password and follow the prompts.

63% who completed last year’s Quiz had a GPA > 5.
GPA = Grade Point Average; 4 = Pass, 7 = High distinction

86% who completed the 2016 Quiz passed all their courses.

Results are not used for assessment purposes.

ACADEMIC INTEGRITY TUTORIAL

Get a head start.
Complete the Academic Integrity Tutorial. It’s compulsory for ENGG1100.
Go to www.uq.edu.au/integrity/Login
First year engineering is common. You do not need to choose a major until 2nd year.

You can choose 'Undeclared' in your first year.

# WHAT’S A MAJOR?

For your BE (Hons) you must attain #64 (64 units). Most courses are worth #2. If you do 4 courses a semester, that’s #8 a semester, or #16 a year, so the BE (Hons) is a four year program.

There are three methods of specialisation in engineering (see right).

You need to think carefully about your choice, as it will affect the number and type of electives you can select.

*Extended and Dual Majors have specific requirements. Please visit [www.uq.edu.au/study](http://www.uq.edu.au/study) for further details.
BE (Hons) dual program students cannot enrol in some courses. Specific restrictions apply to: ECON1050, ECON1310, MGTS1201, and STAT1201 as these courses are covered in the BE (Hons); you may not receive credit for them.

BE (Hons) with BBusMan, BEcon, BCom, please note: Students without Mathematics C and/or another high school prerequisite may be required to undertake preparatory courses beyond the 88 units, and may not be able to complete the program in the minimum time frame without overloading or undertaking summer study.

**What you need to do:**

FIRST YEAR ENGINEERING GUIDE 2017

STEP 4

CHOOSE YOUR COURSES

First year engineering at UQ is a general foundation year. In second year, you declare your engineering major (e.g. Mechanical & Materials, Electrical etc.).

Use these two pages like a checklist and draft your semesters.

1. Complete ALL of Part A:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Semester</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGG1100</td>
<td>Engineering Design</td>
<td>Semester 1</td>
</tr>
<tr>
<td>ENGG1200</td>
<td>Engineering Modelling &amp; Problem Solving</td>
<td>Semester 2</td>
</tr>
<tr>
<td>MATH1051 OR MATH1071</td>
<td></td>
<td>Semester 1 if you have done Maths C (&gt;SA) Semester 2 if you haven’t done Maths C</td>
</tr>
<tr>
<td>MATH1052 OR MATH1072</td>
<td></td>
<td>Semester 2 (or Summer Semester)</td>
</tr>
</tbody>
</table>

2. Complete at least one of Part B:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Semester</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGG1300</td>
<td>Introduction to Electrical Systems</td>
<td>Semester 1 or 2</td>
</tr>
<tr>
<td>ENGG1400</td>
<td>Statics and Dynamics</td>
<td>Semester 1 if you have done Maths C (&gt;SA) Semester 2 if you haven’t done Maths C</td>
</tr>
<tr>
<td>ENGG1500</td>
<td>Engineering Thermodynamics</td>
<td>Semester 1 or 2</td>
</tr>
</tbody>
</table>

Prerequisite = knowledge and skills required before taking the course. For example, you must have achieved greater than a Sound (SA) in Maths C at high school (or equivalent) before you enrol in MATH1051.

International students are expected to maintain a full-time enrolment of 4 courses (#8) per semester and must seek academic advice before cancelling enrolment in any course.

WARNING

> Choosing courses is not simple! It requires careful planning.
> Attend an Advice Seminar and ask for help (page 4).
> DUAL DEGREES are even more difficult (page 7).

Choose MATH1071/1072 if you want maths beyond that in the BE(Hons), or if you are interested in the field.
Complete high school make-up courses from Part D as relevant.
You must complete MATH1050 if you have not completed Maths C (>SA) or equivalent. CHEM1090 and PHYS1171 are necessary if you are planning on doing a university level chemistry or physics course respectively and you did not complete a high school level course.

CHOOSE YOUR ENGG1100 PROJECT

You have a choice of four projects in ENGG1100. Each incorporates different engineering disciplines, so choose a project that interests you.

Project A: Autonomous Watercraft (S1 + P01, P02, P03 or P04)

Motivated by the recent increase in aircraft lost at sea, your team will design, build and demonstrate an autonomous and cost effective water-based search and recovery vehicle. Your craft will detect and recover a submerged black-box.

Disciplines:
- Electrical
- Mechanical
- Mechatronic
- Software

For your timetable select:
- Practical Session P01, P02, P03 or P04 (2 h/w)
- Seminar S01 (1 h/w)
- Lecture L01 or L02 (1 h/w)
- Workshop W01 or W02 (1 h/w)

Please note:
All projects are suitable for all engineering students. There is no expectation from any engineering school that you will have taken a project aligned with your 2nd year choice of discipline.

Join the ENGG1100 Facebook group: www.facebook.com/groups/ENGG1100.2017/

The 2017 projects have not yet been confirmed so we have given you the 2016 descriptions below as a guide.

2017 Projects are likely to be different but will retain the essential flavour.
Project B: 
Water Reuse in Zambia 
(with EWB: Engineers without borders) 
(S2 + P05, P06 or P07)
In Zambia’s Western Province, rapid urbanisation is increasing pressure on the existing water supply system. Teams will design, build and demonstrate a modular treatment system that will allow the recycling of wastewater for multiple purposes, including irrigation and fertiliser use.

Disciplines: 
> Chemical 
> Biological 
> Environmental 
> Materials 

For your timetable select: 
> Practical Session P05, P06 or P07 (2 h/w) 
> Seminar S02 (1 h/w) 
> Lecture L01 or L02 (1 h/w) 
> Workshop W01 or W02 (1 h/w)

Project C: 
Deployable Bridge 
(S3 + P08, P09, or P10)
Teams of students will design and prototype a durable bridge that can be flat-packed and deployed to communities who have lost a bridge due to a natural disaster.

Disciplines: 
> Civil/Structural 
> Environmental 
> Materials 

For your timetable select: 
> Practical Session P08, P09 or P10 (2 h/w) 
> Seminar S03 (1 h/w) 
> Lecture L01 or L02 (1 h/w) 
> Workshop W01 or W02 (1 h/w)

Project D: 
LHD Machine 
(No Seminar, P11 only)
A key piece of equipment for underground metalliferous mining is the Load Haul Dump (LHD) machine. Student teams will research, design, build and demonstrate a scale model of an LHD. The model must have full control: forward, reverse, steering, raising, tilting and lowering a bucket.

Disciplines: 
> Electrical 
> Mechanical 
> Mining 

For your timetable select: 
> Practical Session P11 (3 h/w) 
> NO SEMINAR 
> Lecture L01 or L02 (1 h/w) 
> Workshop W01 or W02 (1 h/w)
STEP 6

PLAN YOUR TIMETABLE

Plan your semester timetable with UQ’s official timetable planner.

Please go to https://timetableplanner.app.uq.edu.au/
You will need your UQ student ID to sign in. (S4xxxxxx and your password)

A. Start with ENGG1100
   > Select your Project and Seminar (Seminars are project specific).
     Project A (P01, P02, P03 or P04 + S01) Autonomous Watercraft
     Project B (P05, P06 or P07 + S02) Water Reuse in Zambia
     Project C (P08, P09, or P10 + S03) Deployable Bridge
     Project D (P11 only, NO Seminar) LHD Machine
   > Add a lecture stream (L01 or L02)
   > Select a Workshop (W01 or W02)

B. Then add lectures, tutorials etc. for courses that have only one stream first. (e.g. ENGG1400 L01)

C. Finally, add all other lecture streams, tutorials and practicals etc.

D. Check all weeks to ensure you are clash free weeks 1-13. (Some practicals and tutorials run specific weeks only.)

For more details, please see: http://www.uq.edu.au/startingatuq/plan-your-class-timetable
SIGN-ON FOR CLASSES!

1. Go to www.uq.edu.au
   > Current Students
   > mySI-net
   > Log in (S4XXXXXX and your password.)

2. Add your course/s.

3. Go to Sign-On

4. Check the sign-on dates and times for your course/s and add these to your diary.

5. Sign into mySI-net 5 minutes before sign-on opens. Spaces fill up quickly!
   *Don’t forget to check weeks 1-13 for timetable clashes (displayed in red).*

FAQS FOR 1ST YEAR

FYELC

What is the FYELC?
First Year Engineering Learning Centre (50-C201) = space for you.
Go to: www.eait.uq.edu.au/first-year-learning-centre

Can I eat and drink in the FYELC?
Yes – but you are expected to keep the place clean and tidy.

What else can I do in the FYELC?
> Access 15 dedicated FYELC tutors for first year engineering courses. Each tutor covers multiple engineering courses and are available:
  Weeks 1 and 13  Monday - Friday 11:00am - 1:00pm.
  Weeks 2 - 12  Monday - Friday 9:00am - 3:00pm.
> Meet your first year engineering mentors (Orientation to Week 3).
> Borrow a laptop (Monday - Friday 9:00am - 4:00pm).
> Book the FYELC Booths (Monday - Friday 9:00am - 4:00pm).
> Arrange first year academic advisor appointments.
> Heat up your lunch, refill your water bottle.
> Find out about the latest engineering events.

Tips

Work
We recommend less then 10 hours a week paid work for full time students.

Student Email
Check your student emails regularly.
(Your student email is s4XXXXXX@student.uq.edu.au.)

How should I manage my time?
> Read dates carefully as not all practicals/seminars and tutorials are weekly.
> Each course in engineering expects you to do about 10 to 12 hours per week, including contact time. For example, for MATH1051 there are three 1 hour lectures, 1 hour tutorial and a 1 hour practical each week leaving 5-7 hours of study.
  (Allow 2 hours for every hour of face-to-face contact.)
> Put together a semester and weekly schedule.
> Start each course by understanding how the course is structured, the requirements, learning resources and when the assessments are due.
  Course profiles: www.uq.edu.au/study
> BE ACTIVE! Attend all lectures, practicals and tutorials - checkout Facebook groups for your courses – participate in learning activities - practise problems - revise and review your work. And if in doubt, ask!
> Utilise all of the learning resources available to you, such as:
  Course tutors
  FYELC tutors
  Online tutorials
  PASS classes
  Learning workshops: www.uq.edu.au/student-services/learning
What happens if I don’t turn up for a lecture or tutorial?

You will need to catch up; talk to your peers and look on Blackboard for what you’ve missed. If it’s a compulsory session, you can lose marks for not attending. Contact your course coordinator for assistance.

> Blackboard – learn.uq.edu.au
> Contacts – www.uq.edu.au/contacts

Where do I hand in my assignments?

Read the course profile: Some submissions will be to the tutor, some online, and some will need a cover sheet for submission to the EAIT Faculty Assignment Centre chute (50-S203, opposite the FYELC).

Go to: www.eait.uq.edu.au/current-engineering-students

What if my assignment is late?

There are only two allowable reasons: Medical (medical certificate required) and exceptional circumstances. Contact your course coordinator to discuss – the earlier the better.

Do I need to have my own laptop?

You can borrow a laptop in the FYELC from 9:00am - 4:00pm, but you cannot take it outside. Ensure you have a USB flash drive clearly labelled with your student ID to store your work.

If you are planning on buying a laptop, tablet, external storage or software please go to: https://student.eait.uq.edu.au/

Tag & Testing? All electrical equipment used within UQ (laptops, chargers etc) must be tested for electrical safety.

Timetable: www.eait.uq.edu.au/workshops/test-tag-sessions

What calculator can I use?

> For many engineering courses, you will need an approved nonprogrammable calculator for use in exams. You will need to obtain an approval label from Student Centre (JD Story Building, level 1) prior to an exam.
> Over 100 calculator models have already been approved for use in exams (Casio FX82 range is preferred). Go to: www.uq.edu.au/myadvisor/exam-calculators

Important Dates - For Commencing and Continuing Students

(Academic Calendar, Teaching Periods, Summer Semester): www.uq.edu.au/startingatuq/important-dates

Semester 1 Critical Dates

27 February
Classes commence – YES, WE START IN WEEK 1! (Monday 27th February 2017)

10 March
Last day to add courses

31 March
Last day to drop courses without financial liability

30 April
Last day to drop courses without academic penalty

Save your money and don’t carry on with courses you have ‘given up on’.
But you must formally withdraw:
> By the end of March so you aren’t charged $$ for the course
> By the end of April so you don’t lower your GPA
Compulsory BE (Hons) Requirement

There is one co-curricular compulsory requirement for the BE (Hons): Engineering Professional Practice (EPP).

You must complete 450 hours of professional engineering practice. Of these hours, a minimum of 225 hours must be carried out assisting or under the immediate direction of a professional engineer.

EAIT Faculty provides an industry placement coordinator to assist in connecting EAIT students with industry.

For more details see:
www.eait.uq.edu.au/engineering-professional-practice

Studying Overseas

Engineering students have an opportunity to enhance their degree by studying abroad for 1 or 2 semesters through the UQ Abroad program.

UQ has partnerships with over 150 universities in 37 countries. Students studying overseas remain enrolled at UQ, continue to pay (or defer) fees and earn credit towards their UQ degree. No additional tuition fees are paid to the host university.

Depending on your BE (Hons) specialisation, and the university you go to, you can take equivalent compulsory courses, engineering electives or other electives.

Most engineering students go on exchange after they have completed two years of study. If you would like discipline specific advice, please speak with one of the academic advisors in your specialisation and visit the UQ Abroad website:

www.uq.edu.au/uqabroad

BE (Hons)/ME

The Bachelor of Engineering (Hons) and Master of Engineering (BE(Hons)/ME) is the first five-year engineering degree in Australia to integrate a semester industry or research placement into a degree with Masters-level coursework.

BE(Hons)/ME graduates will have a head start in careers that require specialist skills and adaptability (eg. in consulting, corporate/government advising or industrial research) or when applying for research higher degrees at the world’s top institutions.

You can apply for this program at the end of year 3. For further information, please go to:

www.eait.uq.edu.au/be-me
The First Year Engineering Mentor Program

Going from high school to university is a big step and we figure the best person to help you with this transition is a student who’s been there, done that and is still wearing the t-shirt!

The UQ First Year Engineering Learning Centre (FYELC) connects you with an engineering student mentor who will pass on his or her knowledge and help you adjust to university life.

The mentors can help with everything from finding the cheapest textbooks and tips for lectures to the social side of university life and all that it has to offer.

MEMBERSHIPS & STUDENT SOCIETIES

Engineers Australia (EA)
> EA is the largest and most respected representative body for engineering in Australia. EA is responsible for the accreditation of engineering degrees and also for the chartered status of professional engineers. Student membership is free; www.engineersaustralia.org.au

Young Engineers at UQ (YEAUQ)
> YEAUQ organise several events throughout the year such as the Engineering Careers Expo and networking events. YEAUQ aims to help students establish useful contacts within industry, paving the way towards vacation work and graduate employment; www.facebook.com/YEAUQld

Women in Engineering
> Women in Engineering www.eait.uq.edu.au/we (we@eait.uq.edu.au)

Memberships and Student Societies
Professional bodies support student members through Student Chapters. These chapters provide career guidance, mentoring and assistance in finding vacation work and study resources. As a student member you may be eligible for a variety of prestigious scholarships, awards and special funds.

Professionals Australia
> Professionals Australia focus on issues that affect you in your profession and represent more than 25,000 professionals and students across Australia. www.professionalsaustralia.org.au

EQUITY & DIVERSITY

Student Services
Student Services provides a range of free services to support you during your time at UQ: New2UQ, Accommodation, Learning, Counselling, Disability and Faith.
For further details, go to:
www.uq.edu.au/student-services

Student Support (SHOC)
SHOC (Student Help On Campus) is a free, independent, short term support service for all UQ students. SHOC can provide you with assistance on matters relating to the following services:
- Education and Equity
- Employment
- Gender and Sexuality
- Legal
- Migration
- Welfare
For more details go to:

Student Charter 3.60.01
The purpose of the Student Charter is to set out the University’s commitment to students’ education and experience at UQ, the expectations and responsibilities of all members with respect to conduct; and to provide guidelines to foster a healthy, diverse, creative and high achieving environment within which to study, research and work.
