Research higher degrees

ARCHITECTURE
2013
Because we offer excellent teaching, in a world-class environment, with exceptional opportunities for an experience you will always remember.

THE UQ ADVANTAGE

**CHOICE OF PROGRAMS**
UQ has the most comprehensive range of high-quality programs in Queensland, with 350+ programs and more than 4000 courses offered at undergraduate and postgraduate levels. You can also undertake an undergraduate (concurrent) diploma in languages, global issues or music performance at the same time as you are completing your bachelor degree.

**EXCELLENT TEACHERS**
UQ has won more national teaching awards than any other university in the country. The University has more than 2700 highly-qualified academic staff dedicated to teaching and research, many of whom are recognised internationally as leaders in their fields.

**SUCCESSFUL GRADUATES**
UQ has a tradition of leadership in all spheres of society, both here and overseas: we include a Nobel Laureate, an Oscar winner, two Governors-General, several governors, scores of politicians and Olympic athletes, and countless businesspeople, researchers, and inventors among our graduates.

**LEADING RESEARCH**
With eight research institutes on-site, UQ is one of the country’s top three research universities across many measures, including annual PhD graduations, commercialisation of discoveries, industry collaboration, Excellence in Research for Australia survey results, and funds received from both government and the private sector.
INTERNATIONAL REPUTATION
UQ is in the top 100 universities worldwide, as measured through a combination of three key global university rankings – Times Higher Education, Shanghai Jiao Tong, and QS World University. UQ is also one of only three Australian members of Universitas 21, a select international network of comprehensive, research-intensive universities.

GREAT CAREERS
UQ qualifications are highly regarded by Australian and international employers, and the employment rate and starting salary for UQ graduates is considerably higher than the national average. The multitude of programs reflects the diversity of career opportunities available to graduates, and the industry links ensure success.

TOP FACILITIES
UQ is constantly upgrading its teaching facilities to meet the needs of both students and industry. We have an active building program, one of the world’s fastest information networks, one of the country’s best research libraries, and modern teaching spaces that enable the use of the latest technology.

CAMPUS LIFESTYLE
You will enjoy the sense of community that pervades UQ’s cosmopolitan campuses at St Lucia, Ipswich, Gatton and Herston. The campuses are renowned as being among the most beautiful and well-equipped in Australia, and offer excellent sporting and cultural facilities plus a broad range of social activities.
If you want to make a positive contribution to the shaping of our built environment and to our culture, then architecture is for you.

“UQ has excellent teaching staff, fantastic facilities and offers great courses, which in turn allows me to be more competent and competitive in the workforce.”

OUTSTANDING FACILITIES
One of the few Universities to offer dedicated studio facilities for students, UQ’s studios are available for use 24 hours a day, 7 days a week. The creative design studios are the principal learning space for UQ Architecture students and the heart of our professional program. The studios are available to students at every level of the program, and are used for project work, tutorials, general study and discussion. UQ’s School of Architecture also boasts a range of other facilities including a Collaborative Design Laboratory, Computer Laboratory, Workshop, and the Architecture and Music Library which houses one of the most extensive collections of architectural material in Australia.

HIGHLY AWARDED TEACHERS
Studying architecture at UQ means that you will benefit from and contribute to a tradition of excellence, meanwhile attaining a degree from one of the leading schools in Australia. Our staff are not only of the highest calibre, but are also professional architects who conduct leading research. This ensures that course content forms a strong foundation on which to build your career.
WHY CHOOSE UQ ARCHITECTURE?

The UQ Architecture advantage:

UNPARALLELED OPPORTUNITIES

UQ’s School of Architecture offers courses that meet the changing demands of the profession and make a positive contribution to the shaping of our built environment and culture. Throughout your degree, you will have opportunities to get involved in hands-on community-based projects, as well as overseas study – providing you with an international architectural perspective. As a result of studying architecture at UQ, you will be presented with outstanding employment opportunities.

QUALITY PROGRAMS

The University of Queensland is one of Australia’s leading institutions for architectural education and research. Offering a professionally accredited program, architectural education at UQ consists of a two-tier program made up of a three-year undergraduate degree (Bachelor of Architectural Design) and a two-year postgraduate coursework degree (Master of Architecture). To ensure

invaluable insight into the profession, ten months work experience is required to enrol in the Masters degree. The structure is aligned with international benchmarks in architectural education and incorporates the requirements for professional registration as an architect. The two-tier program offers students the opportunity for comprehensive study in architectural design and research.
**TERMINOLOGY EXPLAINED**

**Australian (domestic) student**
A student who is an Australian citizen or permanent resident, or a New Zealand citizen.

**Bachelor degree**
A qualification awarded for the first level of study undertaken at university, generally requiring three to five years of study, depending on the bachelor degree studied.

**Course (formerly known as subject)**
A component of study within a program, similar to a subject at school. Full-time students usually study four courses per semester.

**Dual program**
A combination of two UQ degree programs undertaken at the same time. These are sometimes called dual degrees, parallel degrees, combined degrees, or double degrees.

**Elective**
A course that you can choose to study from a set of options. Some UQ programs allow electives from outside your main area of study.

**Entry scores**
Undergraduate students are given an entry score based on high school studies or other post-secondary studies. If you complete high school studies in Queensland you are assigned an Overall Position (OP). Year 12 students in other Australian states are assigned an Interstate Transfer Index (ITI). All other students are assigned a rank. Once you have completed a full year of study at UQ, your OP or ITI is converted to a rank based on Grade Point Average (GPA).

**Grade point average (GPA)**
The average grade of your results, weighted by the unit value of each course. GPA is determined on a semester basis and ranges from 1 (lowest) to 7 (highest).

**Faculty**
A major organisational unit within UQ, with responsibility for academic programs, e.g., Faculty of Arts. Faculties may have a number of sub-faculty academic units called Schools, e.g., School of ... The head of a faculty is called an Executive Dean.

**Honours**
Students planning to go on to research programs (e.g. Master of Philosophy, PhD), are usually required to complete a bachelor program with honours. To qualify for honours, students must achieve high enough results in their bachelor degree. In most cases, honours is available as an additional year of study.

**International student**
A student who is not an Australian citizen or permanent resident, nor a New Zealand citizen, and is enrolled or proposes to enrol at an institution in Australia. Temporary residents of Australia are also classified as international students.

**Major/Extended/Dual Major**
A major or extended major is an area of specialised study within a program, for example, chemistry. A major, extended major, or dual major may be a formal requirement in a program.

**Minor**
A small group of courses in a discipline. A minor is worth approximately half the value of a major.

**Overall Position (OP)**
Overall Positions, or OPs, provide a State-wide rank order of students on a 1 to 25 scale, 1 being the highest) based on your achievement in Authority subjects studied for the Queensland Senior Certificate. Your OP shows how well you have performed in your senior studies when compared with the performances of all other OP-eligible students in Queensland.

**Postgraduate programs**
Programs studied after graduating from undergraduate degrees which include graduate certificates, graduate diplomas, masters, and doctorates.

**Program (formerly known as course)**
A sequence of study involving enrolment, study and graduation, normally awarded with a qualification such as a bachelors degree, graduate diploma, or certificate.

**Program code**
A unique identifying number assigned by the University to a program.

**QTAC**
The Queensland Tertiary Admissions Centre (QTAC), the central admissions body for all Queensland undergraduate programs.

**Semester**
The University teaching year is divided into three semesters: Semester 1, Semester 2, and Summer Semester. Most programs only require enrolment in Semesters 1 and 2 each year.

**Study Abroad**
A program where students enrolled at an overseas university study at UQ for one or two semesters as part of their home university degrees.

**Undergraduate programs**
Usually refers to first-time university programs including diplomas and bachelors degrees.

**Unit**
The value of a course (#). Most courses at UQ are worth two units but some are higher.

_UQ Terminology_  
www.uq.edu.au/study (see UQ Toolkit)
Completion of the Bachelor of Architectural Design (GPA 4.0) plus 10 months professional experience allows entry to the Master of Architecture.
ARCHITECTURAL DESIGN

What is architectural design?
Architectural design is the core focus of architecture, a dynamic and exciting profession that makes a positive contribution to the shaping of the built environment and our culture. Design is an essential component of the practice of architecture. It requires a synthesis of ideas responding to needs of the client and the community and an inherent concern for the quality of living and working environments.

Practical experience
The focus of the Bachelor of Architectural Design is the design studio. Here projects are developed through the application and integration of the knowledge and skills acquired from supporting courses. In addition to design, key areas of the program include environmental design, architectural technology, computer aided design, history and theory, and people environment studies.

Specific objectives are:
- The development of an understanding of ways design ideas can be used to order the built environment at all scales from broad strategic thinking through to the detailed resolution of buildings.
- The development of communication skills through the presentation and discussion of architectural and environmental design outcomes with peers, the profession and the community.
- The development of a coherent set of architectural design values.

Career outcomes
Graduates have employment opportunities with architects and in allied design professions, in private companies, government departments, statutory bodies, local authorities, commercial development companies or research organisations.

Professional membership
Australian Institute of Architects—Student Membership

International experience
The UQ Abroad program provides an opportunity to study for one or two semesters overseas and experience other cultures and approaches to architectural design as well as improve your language skills. See page 15 for more information.

Entry to postgraduate study
The Bachelor of Architectural Design (BArchDes) is a non-professional degree requiring the completion of three years of full-time study to be eligible to graduate. The BArchDes degree (GPA 4.0) is the basis on which students can progress to the Professional Master of Architecture.
## Program Requirements:

or advanced level courses from the Bachelor of Arts list or other courses approved by the BArchDes Honours Coordinator.
The first year architecture experience

At UQ, your immersion in architectural study begins in first year when you will engage with issues and develop the visual and broader thinking that will be relevant to your professional career.

ARCHITECTURAL DESIGN

Activities of the architectural design studio encourage you to think ‘visually’; to synthesise complex and divergent project parameters; and to work cooperatively with others.

You will work on ‘real’ community sites including 1:1 scale design-build activities to explore the connection between ideas, materials and spaces.

In 2012 commencing students were introduced to a number of design problems and design techniques, which they were able to draw upon when designing their projects. Other design-build projects included designing and making a paper ‘body prosthetic’ specific to a human ‘body’ site; as well as a small, crafted site-specific installation with accompanying sound file.

At the end of each year, your projects will be showcased at the annual Summer Exhibition (see page 19).

See page 7 for a list of courses that you will be studying as part of the Bachelor of Architectural Design.
“The Architectural Design courses in first year encourage higher-order thinking, and help students develop the skills necessary for working with complex architectural problems in professional practice. The centre of such experiences is a supportive design studio environment, a place that provides an important launching pad for the study of architecture and your future professional career.”

**CATHY SMITH**
First-year Architectural Design coordinator

“My Bachelor of Architectural Design degree at UQ has been an unforgettable journey, shaped by overseas trips, networking with professional architects and hands-on project work. I especially enjoyed the studio environment, which encourages open discussion with both peers and tutors, providing an excellent foundation in which you get the most from the program. The strong links between the School of Architecture and many of Brisbane’s top architects ensured employment right after my graduation.”

**JONATHAN BROWN**
Bachelor of Architectural Design and Master of Architecture graduate
MASTER OF ARCHITECTURE

DEVELOPING THE SKILLS OF THE CREATIVE DESIGN PROFESSIONAL

What is the Master of Architecture?
The Master of Architecture is the second stage of professional qualification in architecture. You will undertake a range of courses designed to hone your creative design skills and develop advanced technical and professional skills relevant to the practice of architecture. The Master of Architecture program provides opportunities to research and apply the latest thinking in environmental design, architectural technology, history and theory, people/environment studies and professional practice with challenging and engaging architectural design studios as the central focus of the program.

Practical experience
The Master of Architecture, following the Bachelor of Architectural Design, advances creative thinking and practical learning through imaginative and critical projects. Projects integrate and apply knowledge and skills acquired from supporting courses. You will work with leading academics and the state’s most creative architects to conceive new solutions to major issues confronting the contemporary city and its urban framework. The School of Architecture’s workshop and studio facilities offer the latest technology to support you in your project investigations. The fundamental objective of the program is for you to develop the skills to become a professionally qualified graduate ready to contribute to architectural practice in its many forms.

Specific objectives include:
– Development of professional competence in architectural design and practice; and
– Contribution to architectural scholarship through research, design and creative works.

Career outcomes
The Master of Architecture is a requirement for registration as an architect. Graduates must undertake two years of practical experience before they can legally practice as architects, at least one of which has to be subsequent to the award of the Master of Architecture degree, and pass the Architectural Practice Examination of the Board of Architects of Queensland. Employment opportunities for graduates include, but are not limited to, positions in architectural offices, consultancies related to the built environment and academic teaching or research positions.

Professional membership
Australian Institute of Architects—Graduate Membership

International outlook
Architecture is a global activity requiring broad knowledge of international architecture. Many graduates work alongside international architects working on projects in Australia or internationally. UQ offers opportunities for international experience. See page 15 for more information.

FEES
Studies for domestic students is at HECS-HELP rate.

Note: 32 units Masters required for professional accreditation.
“My education at UQ taught me to think creatively and prepared me for a career in Architecture. The projects I undertook during my education developed my interests in parametric design which I have applied in the workforce to resolve real architectural problems. Both the theoretical and practical education offered at UQ have played an important role in allowing me to develop as a designer and an architect. Between my Bachelor and Masters Degree, I was fortunate enough to travel to a number of countries to witness their architectural styles first hand. Having the opportunity to witness architectural wonders such as Machu Picchu have definitely influenced my architectural style.”

JACK DODGSON
Master of Architecture
Graduate Architect, Cox Rayner Architects,
Brisbane
UQ Architecture is recognised internationally as a leading school of architectural design in Australia and offers higher degree research programs supervised by award winning architecture academic staff.

The School of Architecture’s distinctive balance between professional achievement and leadership in research ensures that it is one of the top national performers in attaining competitive research grants. The School’s four research centres conduct a diverse range of research projects addressing physical, social and historical aspects of architecture as well as research by design.

The School of Architecture offers the following postgraduate research programs:

**Master of Philosophy (MPhil)**
MPhil candidates are required to undertake an original and significant research project, usually over a period of one to two years full-time or two to four years part-time. The MPhil is available in all research areas and the degree certificate specifies the field in which the research is undertaken, for example Master of Philosophy (Design).

**Doctor of Philosophy (PhD)**
This qualification requires candidates to undertake an original and significant research project in their selected discipline. Full-time candidates should aim to submit a thesis for examination in three to four years, part-time candidates in five to eight years. The PhD is available in all research areas.

More information
Web: www.architecture.uq.edu.au
Phone (07) 3365 3537
Email uqrhdarc@uq.edu.au
The University of Queensland offers you an extensive range of facilities and equipment to support your architectural studies.

**STUDIOS**
The principal teaching space for architecture students is the design studio. The studios are available to students at each level of the program as a home base and are used for project work, tutorials, general study and discussion. All studios are equipped with drawing boards and storage, as well as high speed wireless broadband for students to access with their laptops. Architecture students have access to the design studios 24 hours a day, seven days a week.

**LABORATORIES AND WORKSHOPS**

**Collaborative Design Laboratory**
The Collaborative Design Laboratory, a joint facility for Architecture and Civil Engineering students, provides facilities for construction and the testing of building components and structural elements as well as architectural and structural models.

**Computer laboratory**
The computer teaching laboratory has computers connected to the University’s Ethernet network and internet. Software resources include a range of Microsoft, Adobe and 3D CAD programs. Information Technology Services provides students with free email accounts and internet access.

**Workshop**
The model making and joinery workshop offers the latest technology allowing students to make prototypes from model scale to full scale. The workshop is equipped with a full range of timber working equipment, a CNC flatbed router, and a laser cutter.

**UQ LIBRARY**
The Architecture and Music Library (ARMUS), located on the third level of the Zelman Cowen Building, is a branch of the UQ Library. ARMUS houses one of the most extensive collections of architectural material in Australia, including a collection of rare books, journals, electronic resources and audio-visual material.

**ADDITIONAL COSTS**
Equipment and materials necessary to complete the Bachelor of Architectural Design and Master of Architecture programs are available in several quality levels. The School recommends that students buy a few of the best materials they can afford to build up a set of professional standard over time.

First year students should budget between $500 to $1,000 for a drawing board, drawing instruments, model making materials, books and magazines.

Field trips and site visits are included in the program and any associated costs will be advised at the commencement of each semester.

In the Library you can browse the web, find course materials, check your reading lists, locate information for your assignments, do photocopying, meet for group study sessions, study individually, browse newspapers and journals in all subjects, plus much more.

Library tours and information skills classes are offered to both new and continuing students. Visit the UQ Library via the web at [www.library.uq.edu.au](http://www.library.uq.edu.au)
The Travel Abroad Design Studio from 2010-2012 offered exciting opportunities for Master of Architecture students to travel overseas and experience international architecture at first hand.

This course offered options for Master of Architecture students to advance their knowledge of architecture through research and design.

Students of the Travel Abroad Design Studio travel overseas for up to three weeks to study the relationship of architecture to its place, situation and context.

Course initiator Professor Brit Andresen said that this insight is fundamentally significant in the study of Architectural Design but cannot be fully understood through photographs and text books.

“Architects need to study and understand the context of constructed environments and we are now able to offer Master of Architecture students the opportunity to travel overseas to experience and study architecture abroad – both contemporary work and building with landscape design of earlier eras,” Professor Andresen said.

Travel Abroad Design Studio activities include visits to different architectural sites, exchange and collaboration with students from international universities, and also expose students to the work and ideas of international architectural practitioners.

Head of the School of Architecture, Professor John MacArthur said that international exposure is invaluable for architects.

“We want to prepare our students for a global career and the Travel Abroad Design Studio gives our graduates a great competitive edge,” Professor MacArthur said.

Students of the course receive a subsidy to assist them in funding the two to three week trip.

In 2010, the first Travel Abroad Design Studio took students to Tokyo, Kyoto and Yuasa in Japan where they studied contemporary architecture and a range of historical buildings and landscapes – some as old as 600 years.

Professor Andresen said that students had the opportunity to investigate the potential of design to create qualities in architectural space and land use in dense cities.

“We also introduced the students to the design principles of high-art examples such as the Imperial Household properties and the sacred places of temples and shrines,” Professor Andresen said.

In Tokyo, students presented the design and construction of the unique Queenslander architecture to students of the prestigious Tokyo Geijutsu Daigaku (University of the Arts).

Back in Australia, Travel Abroad Design Studio students showcased their work at an exhibition to make the international experience available for all UQ Architecture students.

To find out about other research and design opportunities for architecture students visit www.architecture.uq.edu.au

Students of the 2010 Travel Abroad Design Studio studied, documented and designed micro houses in Tokyo, Kyoto and Yuasa (Japan)
Architecture is a truly international discipline. Therefore, we strongly encourage you to undertake an overseas experience as part of your studies with the School of Architecture.

The UQ Abroad program offers students the exciting experience of studying overseas for up to one year on exchange, while gaining credit toward their degree. Overseas study can be undertaken in both the Bachelor of Architectural Design and the Master of Architecture.

The University has exchange agreements with more than 150 universities in 37 countries, including the US, the UK and France.

Bachelor of Architectural Design graduates often take the opportunity to find professional experience overseas to satisfy their work experience requirements before entering the Master of Architecture.

WHY GO OVERSEAS?
Spending part of your program overseas opens up an exciting array of opportunities you might never have thought possible and is especially beneficial when combined with foreign language skills that you have learnt.

Some of the benefits of having an overseas study or work-experience include the following:

Professional benefits
- broaden the scope of your degree
- gain a different perspective on your field of study
- discover new career opportunities, and
- improve your foreign language skills.

Personal benefits
- experience a different culture first-hand
- increase your understanding of the world and gain a global outlook – a quality highly regarded by employers
- make life-long friends from different parts of the world
- learn more about yourself and your capabilities, and
- study and gain employment overseas.

UQ Abroad
www.uq.edu.au/uqabroad
Phone (07) 3365 9075
Email uqabroad@admin.uq.edu.au

In 2009, a group of UQ Architecture students travelled to the Solomon Islands to help villagers rebuild their houses that had been destroyed in the 2007 tsunami.

In 2010, the New Zealand Exchange program allowed students to undertake comparative study of cultural landscapes and Indigenous issues in Auckland and Brisbane.

UQ and the School of Architecture offer you many options for overseas experiences, such as field trips, exchange programs and UQ Abroad.

“As part of my Bachelor of Architectural Design at UQ I undertook a semester of study exchange to the University College of Dublin in Ireland. The semester abroad was an invaluable experience, which allowed me to gain new perspectives on building design and how this is influenced by a colder climate. It was also fantastic to be in such close proximity to so many significant works of art, architecture and design, and to have the ability to travel and experience these things first hand.”

Amy Learmonth, Bachelor of Architectural Design graduate 2010
Admission requirements
To gain admission to undergraduate programs, you must satisfy prerequisites and have a sufficient entry score (OP/Rank).

But there are alternative pathways for entry if you do not meet the requirements, and you can upgrade your score. See Alternative entry or Improving an entry score (upgrading) in the next column.

Prerequisites
Subject prerequisites are the Queensland Year 12 subjects required for individual programs. You may also gain admission to programs with subject equivalents from interstate or overseas schooling, external senior studies, or tertiary studies. Some programs have additional prerequisites, e.g., the Undergraduate Medicine and Health Sciences Admission Test (UMAT).

Entry scores
Entry scores include Overall Positions (OP) and ranks. Eligible applicants are selected for admission to a program in order of merit based on entry scores. Those with the highest entry score are selected first, and so on until the program quota is filled.

The minimum OP or rank required for entry varies from year to year and is determined once applications have been processed and places allocated. While it is difficult to predict exactly what OP or rank will be needed for entry to a program, the previous year’s cut-off points can be used as a guide.

Current Queensland Year 12 students receive an OP on the basis of their overall achievement at school in comparison with other students. OPs are determined by the Queensland Studies Authority and range from 1 to 25, with 1 being the highest. All other applicants are allocated a rank on a scale of 1-99.9, with 99.9 being the highest. This common ranking scale allows many different types of qualifications to be compared, such as:
- Interstate Year 12 students are allocated a Nationally Agreed Common Index (NCAI), which is used to calculate an OP.
- Australian students who complete the International Baccalaureate (IB) are allocated a Nationally Agreed Common Index – referred to as the “Combined Rank” by QTAC, which is used to calculate an OP.
- Non-school-leavers (including previous Queensland Year 12 students who qualified for an OP and OP-ineligible Year 12 school-leavers) are allocated a rank when they apply for tertiary education through QTAC based on previous secondary, tertiary, bridging and preparatory studies, and/or work experience.

English language requirements
If you are from a non-English-speaking background, you must provide evidence of English proficiency. This may be achieved through a pass in Queensland Year 12 English (or interstate equivalent) or by other means, as outlined in the Entry Options booklet available from UQ Admissions.

Alternative entry
If you did not complete Year 12, did not achieve a high enough entry score for your preferred program, or are a mature-aged applicant, there are alternative entry pathways to UQ. Contact UQ Admissions for advice on these alternatives.

Improving an entry score (upgrading)
If you are not offered a place in your preferred program and want to improve your entry score or meet subject prerequisites, you can accept an offer in a lower preference program and try to improve your entry score or meet program prerequisites. This process is called upgrading.

It involves the allocation of a new entry rank that, depending on factors such as academic performance in the lower preference program and your history of previous studies, is potentially higher than your previous rank. For more information on how to improve your entry score, please contact UQ Admissions.

Special entry programs
If you are of Australian Aboriginal and/or Torres Strait Islander descent, or have suffered financial hardship or severe disadvantage beyond your control that has affected previously satisfactory results, you may be eligible for special entry to UQ. Contact UQ Admissions for more information.

UQ's Bonus Rank Scheme gives current Year 12 high school students bonus points towards their entry score for completing certain approved subjects. Contact UQ Admissions for more information.

Programs for high school students
UQ’s Enhanced Studies Program (ESP) provides high-achieving secondary school students with the opportunity to extend their studies in an area of interest and to “test drive” university life. Students accepted into the program can study one UQ course (subject) during Semester One of Year 12. ESP students who successfully complete the program will be eligible to receive one bonus point towards their university entrance rank through UQ’s Bonus Scheme. Most ESP students who later enrol in a relevant UQ degree also receive credit for their completed course. ESP study counts towards your Queensland Certificate of Education (QCE). For more information, visit www.uq.edu.au/guidance/esp

How to apply
You can apply for admission to undergraduate programs at UQ through the Queensland Tertiary Admissions Centre (QTAC). The QTAC Guide provides essential information on the application process and explains the entry requirements for all programs offered through QTAC. Free copies are given to all current Queensland Year 12 students and some interstate schools. You can also buy a copy from newsagents or through QTAC.

For 2013 programs, the deadline for on-time applications is 30 September 2012. Contact QTAC for more information.

Current Year 12 students
- lodge an application online through QTAC’s
  Twelve to Tertiary (TTT) Web application service at www.qtac.edu.au
- International students studying Year 12 in Australia
  - visit www.uq.edu.au/international/ausyear12

Other prospective students
- lodge an online application using QTAC’s Apply by Web service at www.qtac.edu.au

Enrolment
Once you have been offered a place in a UQ program, you can formally accept the offer by lodging a response with QTAC. You can then enrol at UQ by using the UQ link from QTAC’s Current Applicant online service. The UQ enrolment website (www.uq.edu.au/enrolment) provides information about the enrolment process to help you get started. Also check www.uq.edu.au/startingatUQ/ for step-by-step instructions on enrolment procedures.

Each year, hundreds of scholarships worth millions of dollars are awarded to students across UQ.

There are scholarships suitable to particular circumstances, program levels and areas of study. As a starting point you should visit www.uq.edu.au/scholarships to view a comprehensive listing of scholarships and awards available to UQ students.

The criteria for awards vary widely. Students must apply for most scholarships. Some, like the UQ Academic Excellence Scholarships, must be applied for while in Year 12; others must be applied for after one year of study has been completed. Prizes are generally awarded directly by UQ on the basis of results achieved in specific courses.

**Architecture**

Prizes awarded to Architecture students include:
- Bligh Tanner Book Prize
- Board of Architects Prize
- Conrad Gargett Architectural Design Prize
- Conrad Gargett Public Architecture Prize
- Head of Architecture Book Prize
- Innovarchi Thesis Prize
- Jane Grealy Book Prize
- Idearchitecture Prize
- John Simpson Book Prize
- The Karl & Gertrude Langer Memorial Prizes
- Lawrence Bertoldi Book Prize
- Peter Hale Cox Rayner UQ Prize for Architecture
- QIA Memorial Medallion
- R. Martin Wilson Memorial Prize.

Scholarships on offer for enrolled students include:
- The A.E. Brooks Travelling Scholarship in Architecture
- The Ceridwen Indigenous Scholarship
- The R.N. Hammon Scholarships
- National Association of Women in Construction (NAWIC) Bursary
- Guilford Bell Scholarship
- UQ Summer Research Scholarship Program
- The Santos Indigenous Prize
- EAIT Faculty Scholarships
- International Fee Waiver Scholarship for Master of Architecture
- Relocation Scholarship.

**Academic scholarships**

UQ has a generous academic scholarship program in place to encourage and attract high-achieving school leavers who also demonstrate the potential to be future leaders. Selection is based on academic achievement in Year 12 results and takes into account demonstrated leadership potential and other achievements.

**Equity scholarships**

UQ has a strong commitment to providing support to its financially disadvantaged students and offers a range of equity scholarships to Commonwealth-supported students to help alleviate the costs of attending university.

These equity scholarships are open to all undergraduate students who can provide evidence of financial hardship and meet other selection criteria, regardless of their program of study. For more information contact UQ Admissions.

**Scholarships for Indigenous students**

A range of scholarships to encourage Indigenous students to undertake tertiary study is also available. For more information visit www.uq.edu.au/atsis/scholarships

**International opportunities**

UQ encourages students to complete part of their undergraduate studies as an exchange student through UQ Abroad. UQ has over 150 partner institutions in 37 countries around the world. To assist students studying overseas on exchange, the University offers a range of scholarships. See page 14-15 for more information.

**Scholarships for international students**

Scholarships are available for outstanding international students. For more information visit www.eait.uq.edu.au/international-scholarships

**Sporting scholarships**

Each year UQ SPORT awards a number of UQ Sports Achievement Scholarships to high-achieving students who excel in their chosen sport. These scholarships can also provide free access to the University’s sporting facilities and services.

Phone (07) 3346 9875

UQ understands that financial awards can make a world of difference, which is why we offer a range of scholarships for students.
When planning your study experience, consider the following financial options.

**FEES AND CHARGES**

When you study at university, you pay fees for each course in which you enrol. Most undergraduate places at UQ are funded partly by the federal government (Commonwealth supported) and partly by you, and the amount you pay depends on the band level of your course. National priority courses (Mathematics, Science, Statistics) attract the lowest charges.

You are eligible for Commonwealth supported (CSP) funding if you are an Australian or New Zealand citizen, or an Australian permanent resident. International students must pay full tuition fees.

At UQ, fees are charged each enrolment period (e.g., semester or year) according to the courses you undertake, not the program in which you enrol and, because charges are levied according to your exact enrolment, it is not possible to publish a fixed annual fee.

**Fee Calculator**

To help you estimate your fees for an enrolment period, UQ has developed an online Fee Calculator, available on the Courses and Programs website.

The Fee Calculator shows individual course fees and allows you to add them to a list to calculate the overall fee for your enrolment. Before you enrol, Academic Advisors can help you develop a study plan.

Fees information
www.uq.edu.au/study
Fee Calculator
www.uq.edu.au/study (see UQ Toolkit)

**LIVING COSTS**

As a university student, you will also need to consider other costs of living, especially if you are living away from home for the first time. These include accommodation, books and study requirements, transport, and parking. Fortunately, a wide range of assistance is available.

- **UQ, the Student Union, has a secondhand bookshop at St Lucia, and provides many low-cost entertainment activities. UQ’s Student Services offer help with accommodation and finding a job.**

And the Australian Government provides financial support for low-income earners, as well as fee repayment options for all students.

www.uqu.uq.edu.au
UQ Student Services
www.uq.edu.au/student-services

**FINANCIAL ASSISTANCE**

**Centrelink student services**

The Australian Government’s Centrelink provides three income-support payments for Australian tertiary students: Youth Allowance, Austudy, and Abstudy. You can apply for these payments at any Centrelink Customer Service Centre.

Other schemes include:

- an interest-free advance loan for students, where you are paid part of your allowance as a lump-sum advance
- the Pensioner Education Supplement (PES), which is a payment to certain categories of pensioners commencing study
- the Health Care Card, which enables Commonwealth health concessions, such as low-cost pharmaceuticals, under the Pharmaceutical Benefits Scheme (PBS).

Youth and Student Services
Phone 13 2490
Abstudy
Phone 13 2317

**HECS-HELP**

If you are a domestic student in a Commonwealth supported place, you may be eligible to receive HECS-HELP.

HECS-HELP allows Australian citizens or permanent humanitarian visa holders in Australia to defer all or part of their student contribution amounts for repayment when their incomes meet a specific threshold. This means that you do not have to start repaying your HECS debt until you earn a certain income level (currently $47,195 per tax year). It is then taken out of your pay as additional tax.

Each enrolment period, if you pay “up-front”, i.e. at the time of enrolment, you will receive a 10 percent discount on your fees. (Please note that New Zealand citizens or Australian permanent residents without a humanitarian visa must pay up-front and do not receive a discount.)

HECS-HELP/FEEL-HELP information

**Scholarships**

See page 17.
The Summer Exhibition offers a diverse and exciting collection of student architectural design work inspired by current projects which incorporate modern design principles such as sustainability and environmental responsibility.

More than 300 students from all years of the Bachelor and Master programs present their drawings, models and computer simulations at this annual event.

In 2011, architectural firm Studio Mitt was engaged by UQ’s School of Architecture to help develop a cohesive set of way-finding and signage devices for the Summer Exhibition. Studio Mitt architect and UQ Architecture tutor, Kahn Neil said that together with students, Studio Mitt designed branding, signage and seating for the 2011 Exhibition.

“Studio Mitt collaborated with students under the loose theme of ‘transforming the everyday’ to create the exhibition structures, which pulled together the various display spaces for student projects which were created throughout the year.”

“The Summer Exhibition is the perfect opportunity for students to celebrate their year’s work with friends, family and potential employers,” Kahn said.

The Summer Exhibition also allows professional architects and alumni to meet the next generation of UQ architects and forms an important part of professional training for your future career as an architect.

Awards sponsored by significant architecture firms, prizes and travel scholarships are also presented during the event.

Since the late 1970s, UQ Architecture students have presented their work at the School of Architecture’s annual Summer Exhibition, helping them to take a leading role in the future of architectural design.

The 2012 Summer Exhibition will be held from 22 November to 7 December, 2012.
You are an International student if you are a:
- Temporary Resident (visa status) of Australia
- Permanent Resident (visa status) of New Zealand, or
- resident or citizen of any other country.

Eligibility for UQ study
For admission into undergraduate programs at UQ, you must have:
- completed recognised upper secondary or equivalent Year 12 studies to the required standard
- satisfied individual program requirements (e.g., specific subject prerequisites, auditions or interviews)
- satisfied English language requirements. If you do not meet these criteria, you might consider taking the foundation year bridging course offered by International Education Services (IES) or English language training offered by the Institute of Continuing and TESOL Education (ICTE).

Study Abroad and exchange
If you are an international student currently studying overseas at an accredited university, you can study at UQ for one or two semesters as part of the Study Abroad program. If another university has an exchange agreement with UQ, you can study at UQ as an exchange student for one or two semesters.

More information
www.uq.edu.au/international/exchange
www.uq.edu.au/studyabroad

Expenses
When you apply for a student visa, the Department of Immigration and Citizenship (DIAC) may ask you for evidence that you have sufficient funds to complete your studies. Expenses to be considered include visa and medical (pre-departure) fees, tuition fees (for full degree or study abroad fees), general living expenses (around $18,000 - $22,000 a year), return airfares, and Overseas Student Health Cover (OSHC).

Services for international students
International Student Advisors can help you quickly settle into life as a UQ student. These include collecting you from the airport, helping you find temporary accommodation, organising your orientation, and scheduling your academic preparation sessions. They can also answer your questions about health services, family matters, schooling or childcare, social events, and cultural or religious organisations.

UQ CAMPUSES

UQ’s campuses are renowned as being among the most beautiful and well-equipped in Australia. All UQ Architecture programs are delivered at the St Lucia campus.

UQ ST LUCIA
Situated on the Brisbane River just seven kilometres from the central business district, UQ St Lucia is one of Australia’s most attractive campuses. With its striking sandstone buildings and beautiful parklands, it is the ideal setting for both study and recreation. You can find just about everything you need on-site, including excellent sporting venues, shops and cafes.

UQ GATTON
UQ Gatton delivers excellence in agricultural and natural resource sciences in a relaxed, friendly atmosphere. Just over an hour’s drive west of Brisbane, the campus offers a unique blend of recreational amenities, support services, modern teaching facilities, state-of-the-art laboratories and historic buildings, along with the $100 million School of Veterinary Science.

UQ IPSWICH
UQ Ipswich provides a high-quality teaching and learning environment in a supportive, friendly campus community. Students benefit from small classes held in purpose-designed teaching spaces and enjoy a range of support, amenities and recreational services, including a bookshop, cafes, sports court, oval and gym. UQ Ipswich is also home to UQ College, a new academic preparation centre.

UQ HERSTON
Herston is UQ’s core clinical health teaching and research site. The campus is close to Brisbane city and is located alongside the Royal Brisbane and Women’s Hospital and the Royal Children’s Hospital. This co-location demonstrates UQ’s commitment to working closely with health professionals and researchers to deliver innovative and contemporary health education programs.
