To meet the 450hr Engineering Professional Practice requirement, start by locating an eligible Type A placement. Click here for help.

Consider Type B allowable activities to help meet the requirement.

UQ Insurance states all unpaid placements must be approved prior to commencement. Click here to begin the approval process.

Is your Type A placement or Type B activity eligible? Refer to the activity table.

To substantiate your claims, as you carry out your Type A and Type B professional practice placements and activities, ensure you gather evidence outlined in the activity table.

All Type A and Type B professional practice hours must be logged and claimed via the EPP System.

At any point you may write your five (5) reflections. Reflections must be written in the SEAL format and address the Engineers Australia Stage 1 Competencies.

Refer to the writing your reflections guideline to learn more and understand how your assessment will be marked.

Once you have completed the minimum requirement of Professional Practice, you may submit your reflections to UQ Blackboard, Organisation: Engineering Professional Practice 2018 for marking.

Click here for a step by step guide.

Tip: Ensure you have ticked off everything on this checklist before you submit!
