CISSP Training Workshop

Brought to you by UQ Cyber
25 November - 29 November 2019

Become a Certified Information Systems Security Professional

This five day training workshop provides a comprehensive review of information security concepts and industry best practice, covering the eight domains of (ISC)2's CISSP Common Body of Knowledge:

• Security and Risk Management
• Asset Security
• Security Engineering
• Communications and Network Security
• Identity and Access Management
• Security Assessment and Testing
• Security Operations
• Software Development Security

Pre-requisites:

While there are no pre-requisites to attend this training, the course is intended for experienced security practitioners, managers and executives interested in proving their knowledge across a wide array of security practices and principles.

What's Included

• World class teaching from an experienced and authorised (ISC)2 instructor
• Varied interactive learning activities with real world scenarios
• Peer collaboration opportunities
• Official (ISC)2 courseware
• Morning tea, lunch and afternoon tea

Costs (incl GST)
