Welcome new International Articulation Students

Faculty of Engineering, Architecture and Information Technology (EAIT)

Greg Birkett
Deputy Associate Dean (Curriculum Strategy)
Acknowledgment of Country

The University of Queensland (UQ) acknowledges the Traditional Owners and their custodianship of the lands on which we meet.

We pay our respects to their Ancestors and their descendants, who continue cultural and spiritual connections to Country.

We recognise their valuable contributions to Australian and global society.
Recording of this Presentation

Students, please be aware that this session is being recorded so it can be made available via the Faculty of EAIT orientation page. The reason we are recording the orientation presentation is to make it available for your future reference, and to support students who may not have been able to attend today’s session.

Suggested options for students not wishing to be recorded:

• Turn off video and mute audio
• Use a proxy name for Zoom (student attendance will still be on record with the Course Coordinator)

Please note that students are not permitted to record teaching without the explicit permission of the Course Co-ordinator. This includes recording classes using Zoom.

For further information:

• PPL 3.20.06 Recording of Teaching at UQ
The Faculty of Engineering, Architecture and Information Technology welcomes international students on articulation pathways from partners all over the world including:

- India
- China
- Malaysia
- Singapore
- Indonesia
- Vietnam
- Hong Kong
- Sri Lanka
- Europe
Thank you!
A challenge!
Your success...
Studying at UQ is not all academic…
Engineering Professional Practice (EPP)

**Who is required to complete Engineering Professional Practice?**

All UQ Bachelor of Engineering, Bachelor of Engineering (Honours), Bachelor of Engineering (Honours)/Master of Engineering and Master of Engineering students.

**What am I required to complete to graduate?**

1. Complete 450 hours of professional practice approved by the Faculty; and
2. Satisfactorily complete five (5) reflections from your Engineering Professional Practice experiences, referring to the Engineers Australia competencies. See more information here: [Reflection Assessment Writing guidelines](#)

<table>
<thead>
<tr>
<th>450 Hours of Professional Practice</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>TYPE A HOURS</strong></td>
</tr>
<tr>
<td>A minimum of 225 hours in an engineering environment under a degree qualified engineer to be claimed for Type A hours</td>
</tr>
</tbody>
</table>

*you can claim all 450 hours (type A hours) in an engineering environment under the supervision of a Degree Qualified Engineer. 225 hours is the minimum amount of Type A hours you must attain.*

Examples of what you can claim:

- Up to 75 hours of paid work outside of an engineering environment may be claimed – i.e. working at Kmart or McDonalds. (Category 3)
- Up to 40 hours of significant industry exposure through pre-approved UQ Courses (Category 5)
- Up to 75 hours of tutoring at UQ may be claimed, including tutoring in a non-engineering course (category 4)
- Up to 160 hours may be claimed through an approved study tour (category 5)
How to complete your EPP

• Secure your own professional practice placement
• Can be completed at any time during your degree, including vacation period, in Australia and/or overseas
• 450 hours does not need to be completed at once
• Make sure you are familiar with the EPP Activity Table

For more information visit https://www.eait.uq.edu.au/engineering-professional-practice/overview
Where to find EAIT Employability

- Hawken Engineering Building (50), room C305
- www.eait.uq.edu.au/employability
- facebook.com/groups/EAITstudentemployability
UQ Innovate is a newly developed workshop facility where UQ students and staff can meet, collaborate and create in a friendly and supportive environment.

You will have access to trade and academically qualified staff and the latest industry-grade equipment, from 3D printers to laser cutters to water jets.

2200 square metres of makerspace!
UQ Life Online

Our team will be bringing you a range of new and innovative experiences that you can participate in virtually from home, and bringing you the best of what is already out there to help you to make and maintain connections with not just our UQ community, but the communities you are part of beyond UQ.

If you are studying from overseas, many of our online events happen on UQ websites and across our social accounts on Facebook and Instagram and you may need to access these sites with a Virtual Private Network. [Find out about UQ's VPN](#).

We will be regularly adding new experiences and opportunities to this page, so check back regularly, and follow us on [Instagram](#) and [Facebook](#) for the most up to date information.
International Student Support

Rachel Crooks
International Student Advisor
International Student Advisor

That’s me
I’m here to make your experience as good as it can be, with your help.

internationalstudentadvisor@eait.uq.edu.au or book a session with me on Vygo!
EAIT International Student Support

Take off: All aboard the mentorship.

EAIT is excited to welcome you to the EAIT International Student Support Program, run through the app, and web platform Vygo.

Connect with current EAIT international students, join group session, ask questions, and meet people.
1. Find the EAIT International Student Support Program and select “Join program”.

2. Once you’ve joined, you’ll be prompted to choose your user type based on whether you need support (mentee) or want to offer it (mentor). Select “Need Support” and click continue and confirm your enrolment.

3. On the dashboard you’ll see group sessions available to RSVP for, as an “Find Support Now” button. Click this!
Group Sessions

Head to the dashboard, or the group sessions tab to see what’s available.

For example:

1. Meet student leaders
2. Games nights to meet other students
3. Information sessions on specific subjects like academic integrity, or employability or the different engineering disciplines
English for Academic Communication (EAC)

EAC is a free workshop series, run through the Institute of Continuing and TESOL Education designed to polish your academic English to help you achieve success in your academic studies.

https://youtu.be/GS8CHHX6Vyk
EAC Classes- is it for you?

In the next day or two you will receive an email inviting you to do Academic English Screening. The self-assessment tool will take approximately 20 minutes and is designed to help you assess whether you might benefit from attending the free English for Academic Communication classes, or not.

This is NOT a test, and you can’t fail! It’s an opportunity for you to assess your competencies. You’ll receive a follow up email with a recommendation of how to proceed.
Academic Integrity and Plagiarism

The University takes academic integrity very seriously.

You must:

• **Not** use the work of others without appropriate referencing and citation
• **Not** share code for individual assignments
• Know when group work is appropriate and not appropriate
• **Not** let others use your work or answers
• Ask your lecturer (**before** the due date) if you’re not sure
• Very effective Electronic detection of plagiarism is used; and severe penalties apply!

• **Compulsory Information and Online Learning Module:** [https://web.library.uq.edu.au/library-services/it/learnuq-blackboard-help/academic-integrity-modules](https://web.library.uq.edu.au/library-services/it/learnuq-blackboard-help/academic-integrity-modules)
Access UQ’s Academic Integrity module

2. Click on the link and enrol using your UQ student email address

Access the modules

Access the Academic Integrity Modules (AIM) (UQ login required) on the edX (Edge) platform and click Enrol Now to get started. The modules are intended to be completed only once.

Make sure to access AIM via a link that requires a UQ login. If you access AIM via another method (e.g., gmail or another personal account) it will not be linked with your UQ account and your course coordinators will NOT be able to check your completion.

## Faculty of Engineering, Architecture & Information Technology

### Credit Assessment and Study Plan

**Student:**

**Institution:**

**Original Program:**

**UQ Program:** Bachelor of Engineering (Honours)

**UQ Major (Plan):** Software

**Course List Year:** 2020 (Transition rules have been applied)

**Specific Credit:** 16 units: ENGG1300, MATH1051, MATH1052, CSSE1001, INF1100, CSSE2002, CSSE2010, COMP3505

**Specific Elective:** 2 units: MATH2000

**Block Credit:** 24 units: 2 units Unspecified Part B Electives - level 1, 2 units Unspecified Part B Electives - level 2, 6 units Unspecified Engineering Electives, 4 units Unspecified Non-Engineering Electives - level 1

**Total Credit:** 32 units

**UQ Units Required:** 32 units

**UQ Study Duration:** March commencement: 4 semesters = 2 years (not counting any summer semesters)

**Professional Practice:** Completion of 450 hours of professional practice and associated reflections to satisfy the program requirements. For more information visit: [https://www.sit.uq.edu.au/engineering-professional-practice](https://www.sit.uq.edu.au/engineering-professional-practice)
